

Beautiful Butterfly Masks

You will need: pencil, tracing paper, colored card stock, scissors, glue, feathers, beads, sequins, glitter, rhinestones, 12 in. wood dowel, plastic clay and clear tape.

1. Using the pencil and tracing paper, trace the butterfly mask pattern. Lay the tracing paper facedown on the colored card stock. Trace over the pencil lines to transfer the shape onto the card stock. Cut out the mask.
2. Glue some feathers upright behind the mask or glue a length of boa along the top edge.
3. Glue strings of beads or sequins in patterns onto the mask. Continue decorating the mask by drawing designs with glitter pens and by gluing on rhinestones.
4. Paint the wooden dowel, push one end into some clay to hold it while it dries. When it's dry, wrap the dowel with the string of beads, gluing the beads in place at each end of the dowel. Attach the dowel to the back of your mask either at one side or in the center and secure it with clear tape.
