

## Coke – Pepsi Taste Test

Materials Needed: small cups, Coke & Pepsi, paper & pencil, table, cardboard rectangle about 2 ft. long and 1 ft. high folded in half to use as a divider

Directions:

1. Set up a table and place the cardboard divider so the person keeping track of the results can keep this information behind the divider.
2. Pour small cups of pop of both types.
3. Each person will have both types of pop and pick the one he or she likes the taste of best.
4. Tally results.
5. You may want to send the results to the company of the winning product. They may send you a thank you surprise!

Comments:

Other drinks can be used, such as comparing different kinds of orange juices, chocolate milks or different “fat” content milks (i.e. lowfat milk, skim milk or whole milk).

Other foods could also be used such as Oreos and Hydrox cookies.
