

“I’m a Bug!”

Materials: cardboard or Styrofoam egg cartons, scissors, pipe cleaners, markers or crayons, glitter, glue

Procedure:

- Cut up the egg carton into individual egg holders
- Cut out holes in the bottom for eye holes
- Decorate the containers like bug eyes
- Connect two or more of the containers together using the pipe cleaners (may need to use a hole punch to make holes to put them through)
- Make antennas and use two pipe cleaners to wrap around your ears
- Now – make believe you are a bug of choice and see how it feels to be “buggy”
