

Insect Riddles

I make a food that's sticky sweet,
that bears and people like to eat.
I mix a pollen-nectar batch
and store it in a special wax.
What am I? (Bee)

I flutter by the flowers,
Sipping up my lunch.
My babies look like little worms
and leaves are what they munch.
What am I? (Butterfly)

I hop about in meadows
when grass is green and tall
and make a cheerful chirping sound
in summer, spring and fall.
What am I? (Grasshopper)

I'm not an insect, but I spin
a trap to catch an insect in.
I have too many legs to be a real insect:
count and see!
What am I? (Spider)

I buzz by your screen door,
I land on your clothes,
I sample your lunch,
And I tickle your nose.
I fly by so fast and I'm so hard to swat.
Some call me a pest and dislike me a lot!
What am I? (Fly)

I crawl along so slowly,
As quiet as a mouse,
Then quickly catch an insect
and take it in my house.
My house is hard and rounded
and grows upon my back.
I take my home along with me
and never have to pack!
What am I? (Turtle)
