

## Spooky Spider Webs

Materials: black construction paper, white paint, scissors, round metal cake pan, a marble

Preparation: Cut a piece of construction paper to fit the bottom of the cake pan. Next, place about ½ spoonful of white paint in the middle of the paper. Give the pan to a child.

Activity: The child drops a marble into the pan and begins tilting the pan back and forth causing the marble to roll around. As the marble passes through the paint, it leaves trails of white across the paper resembling a somewhat imperfect but fun spider web.
