This Little Piggy

Can you get your pig to the market first?

See who can prod a wobbly pig to the market the fastest in this outdoor game that dates back to the 16th century. To play, first fill clean plastic bottles (labels removed; you’ll need 1 bottle for each player) with equal amounts of pink-tinted water and replace the caps. Use hot glue or double-sided tape to stick a pink craft foam snout with black marker nostrils to each bottle cap. Mark start and finish lines on your playing area, then have the players line up at the starting line with a stick or broom handle and their pigs on the ground in front of them. At “Go,” players use their sticks to roll and push their pigs to the finish line.
