Create a title slide for your story.
Animate a Story Title
Create a title slide for your story.

GET READY
Paint a new sprite to act as your title card.

ADD THIS CODE
```
when [flag] clicked
set [ghost] effect to 0
repeat 50
change [ghost] effect by 2
broadcast [Title End]
```
Use the ‘ghost’ effect so your title slide fades away when the story starts.

TRY IT
Click the green flag to start.

TIP
Use a “when I receive message” block on the first character to speak so they wait until after the title fades.
